

GAZEBO

GAZEBO

Protect your family from the harsh UV rays of the New Zealand sun whilst enjoying a high level of privacy, with our beautifully crafted Alpine spa pool gazebo.

Give your backyard a 'resort feel' and create an appealing social setting with the gazebo's convenient bar area, complete with stools to allow guests who aren't swimming easy interaction with those in the pool.

Our gazebos have the dual function of providing safe shelter not only from the summer sun, but also offer excellent protection from the cold, in particular the rain in winter and that often unpleasant cool wind. Carefully designed to compliment almost any landscaping or garden design, our gazebo is the perfect addition to your backyard.
